

RUBRIK PENILAIAN MATA KULIAH MANAJEMEN SDM

Program Magister Manajemen

A. RUBRIK PENILAIAN UTS - INDIVIDUAL PROJECT (25%)

"HR FUNCTION AUDIT & TRANSFORMATION"

Komponen Penilaian dan Sub-CPMK yang Dievaluasi:

Komponen	Sub-CPMK	Bobot	Deskripsi
Current State Assessment	1.1, 1.2, 2.1, 3.1	30%	Audit komprehensif fungsi HR dan maturity assessment
Gap Analysis & Prioritization	1.3, 2.2, 3.2, 4.1	25%	Identifikasi gap kritis dan impact-effort matrix
Transformation Strategy	4.2, 5.1, 5.2, 6.1	30%	Target operating model dan technology roadmap
Implementation Plan	6.2, 1.4, 2.3, 3.3	15%	Phase-wise rollout dan success metrics

RUBRIK DETAIL UTS - INDIVIDUAL PROJECT

1. CURRENT STATE ASSESSMENT (30% dari UTS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
HR Function Maturity Analysis	Menggunakan multiple frameworks (SHRM, Ulrich, Dave Ulrich HR Operating Model) dengan analisis mendalam. Benchmarking dengan 5+ organisasi industry leader.	Menggunakan 2-3 frameworks dengan analisis yang solid. Benchmarking dengan 3-4 organisasi.	Menggunakan 1-2 frameworks dengan analisis basic. Benchmarking terbatas.	Framework tidak jelas atau tidak relevan. Tidak ada benchmarking yang memadai.
Stakeholder Analysis	Survey/interview w 10+ stakeholders	Survey/interview w 6-9 stakeholders.	Survey/interview w 3-5 stakeholders.	Survey/interview w <3 stakeholders

	dari berbagai level. Analysis mendalam dengan statistical significance.	Analysis yang baik dengan insights yang relevan.	Analysis basic namun memadai.	atau analysis yang superficial.
Data Quality & Analytics	Menggunakan HR metrics yang comprehensive (20+ metrics). Data visualization yang excellent. Statistical analysis yang sophisticated.	Menggunakan 15-19 metrics yang relevan. Data visualization yang baik. Statistical analysis yang solid.	Menggunakan 10-14 metrics. Basic data visualization. Simple statistical analysis.	<10 metrics atau data yang tidak reliable. Poor visualization atau no statistical analysis.
Industry Benchmarking	Comprehensive benchmarking dengan industry leaders dan emerging practices. Global perspective included.	Good benchmarking dengan industry standards. Some international references.	Basic benchmarking dengan local/regional standards.	Limited atau no benchmarking.

2. GAP ANALYSIS & PRIORITIZATION (25% dari UTS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Critical Gap Identification	Identifies 8+ critical gaps dengan root cause analysis yang mendalam. Links ke business impact yang clear.	Identifies 6-7 gaps dengan good analysis. Business impact identified.	Identifies 4-5 gaps dengan basic analysis. Some business impact mentioned.	<4 gaps identified atau analysis yang superficial.
Impact vs Effort Matrix	Sophisticated matrix dengan quantified impact dan effort. Clear	Good matrix dengan semi-quantified assessment.	Basic matrix dengan qualitative assessment.	Poor matrix atau no clear prioritization logic.

	prioritization methodology.	Logical prioritization.	Simple prioritization.	
Stakeholder Impact Assessment	Comprehensive stakeholder mapping dengan detailed impact analysis untuk each group.	Good stakeholder analysis dengan impact assessment untuk key groups.	Basic stakeholder identification dengan limited impact analysis.	Poor stakeholder analysis atau no impact assessment.
Change Readiness Assessment	Uses established change readiness tools (Kotter, ADKAR). Quantified readiness score dengan mitigation strategies.	Uses some change readiness framework. Good assessment dengan some mitigation ideas.	Basic change readiness assessment. Limited mitigation strategies.	No formal change readiness assessment.

3. TRANSFORMATION STRATEGY (30% dari UTS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Target Operating Model	Innovative dan future-ready operating model. Clear integration of AI/digital technologies. Detailed organizational design.	Good operating model dengan some innovation. Technology integration planned. Organization structure defined.	Basic operating model. Limited technology consideration. Simple structure.	Unclear operating model atau no innovation.
Technology Roadmap	Comprehensive tech stack dengan AI/ML integration. Detailed vendor evaluation. Integration architecture defined.	Good technology selection dengan some AI consideration. Vendor options identified. Basic integration plan.	Basic technology roadmap. Limited innovation. Simple vendor selection.	Poor technology planning atau no roadmap.

Capability Development Plan	Detailed skills gap analysis dengan personalized development paths. Future skills preparation included.	Good capability assessment dengan development planning. Some future skills consideration.	Basic capability planning. Limited skill development focus.	No clear capability development strategy.
Change Management Approach	Sophisticated change strategy using proven methodologies. Communication plan included. Resistance management detailed.	Good change strategy dengan clear methodology. Basic communication plan. Some resistance consideration.	Simple change approach. Limited communication planning.	No formal change management approach.

4. IMPLEMENTATION PLAN (15% dari UTS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Phase-wise Rollout	Detailed 18-24 month roadmap dengan clear milestones. Quick wins identified. Dependencies mapped.	Good 12-18 month plan dengan milestones. Some quick wins. Basic dependencies.	Basic 6-12 month plan. Limited detail.	Vague timeline atau unrealistic planning.
Resource Allocation	Detailed budget dengan FTE requirements. Technology costs included. Training budget allocated.	Good resource planning dengan estimated costs. FTE needs identified.	Basic resource estimation. Limited cost consideration.	No clear resource planning.
Risk Management	Comprehensive risk register dengan mitigation strategies. Contingency plans included.	Good risk identification dengan some mitigation. Basic contingency.	Basic risk assessment. Limited mitigation.	No formal risk management.

Success Metrics & KPIs	Comprehensive dashboard dengan leading/lagging indicators. ROI calculations included.	Good metrics selection dengan measurement plan. Basic ROI estimation.	Simple metrics identified. Limited measurement planning.	No clear success metrics.

B. RUBRIK PENILAIAN UAS - GROUP PROJECT (35%)

"STRATEGIC HRM CONSULTING PROJECT"

Komponen Penilaian dan Sub-CPMK yang Dievaluasi:

Komponen	Sub-CPMK	Bobot	Deskripsi
Organizational Diagnosis	7.1, 8.1, 9.1, 10.1	25%	Comprehensive HR audit dengan stakeholder analysis
Strategic Solutions	7.2, 8.2, 9.2, 11.1	35%	Evidence-based recommendations dan innovation
Implementation Strategy	10.2, 11.2, 12.1, 13.1	25%	Roadmap implementasi dan change management
Business Impact	12.2, 13.2, 7.3, 8.3	15%	ROI modeling dan sustainability planning

RUBRIK DETAIL UAS - GROUP PROJECT

1. ORGANIZATIONAL DIAGNOSIS (25% dari UAS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Comprehensive HR Audit	Audit semua 13 fungsi HR menggunakan multiple frameworks. Integration analysis yang sophisticated.	Audit 10-12 fungsi HR dengan framework yang solid. Good integration analysis.	Audit 7-9 fungsi HR dengan basic framework. Limited integration.	<7 fungsi atau framework tidak memadai.
Stakeholder Interview Quality	15+ interviews across all organizational	10-14 interviews dengan good	6-9 interviews dengan basic methodology.	<6 interviews atau poor methodology.

	levels. Structured methodology with validated instruments.	methodology. Semi-structured approach.	Simple questions.	
Data Collection & Analysis	Multiple data sources (surveys, interviews, documents, observations). Advanced analytics used.	Good mix of data sources. Statistical analysis applied.	Basic data collection. Simple analysis.	Limited data atau no analysis.
Root Cause Analysis	Sophisticated root cause methodology (5 Whys, Fishbone, Pareto). Clear causation established.	Good root cause analysis dengan established method. Causation identified.	Basic root cause attempt. Limited methodology.	No formal root cause analysis.

2. STRATEGIC SOLUTIONS (35% dari UAS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Evidence-based Recommendations	All recommendations backed by research, data, dan best practices. Academic rigor maintained.	Most recommendations well-supported. Good research base.	Some recommendations supported. Basic research.	Poor evidence base atau unsupported claims.
Innovation & Creativity	Cutting-edge solutions dengan AI/digital integration. Industry-leading practices adopted.	Good innovation dengan technology consideration. Modern practices included.	Some innovation attempts. Basic technology use.	No innovation atau outdated approaches.
Integration Strategy	Sophisticated integration	Good integration	Basic integration	No integration

	across all HR functions. Synergies clearly identified dan leveraged.	dengan clear connections. Some synergies identified.	attempts. Limited connections.	thinking atau siloed approach.
Cultural Transformation	Comprehensive culture change strategy. Behavioral change methodology included.	Good culture strategy dengan some behavioral focus.	Basic culture consideration. Limited behavioral planning.	No culture strategy atau superficial treatment.
Technology Integration	Advanced HR tech stack dengan AI/ML components. Digital transformation roadmap included.	Good technology selection dengan some advanced features. Digital planning included.	Basic technology choices. Limited digital consideration.	Poor technology planning atau no digital strategy.

3. IMPLEMENTATION STRATEGY (25% dari UAS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Phase-wise Implementation	Detailed 24-36 month roadmap dengan clear phases. Quick wins dan long-term initiatives balanced.	Good 18-24 month plan dengan phased approach. Quick wins identified.	Basic 12-18 month plan. Simple phasing.	Vague timeline atau no phasing logic.
Change Management Plan	Sophisticated change strategy menggunakan proven frameworks (Kotter, ADKAR, etc.).	Good change planning dengan established methodology.	Basic change consideration. Simple methodology.	No formal change management.
Risk Assessment & Mitigation	Comprehensive risk register dengan detailed	Good risk identification dengan	Basic risk assessment.	No risk management

	mitigation strategies. Contingency planning included.	mitigation plans. Some contingency.	Limited mitigation.	atau poor assessment.
Resource Requirements	Detailed resource planning (FTE, budget, technology, training). ROI calculations included.	Good resource estimation dengan cost consideration. Basic ROI.	Simple resource planning. Limited cost analysis.	No resource planning atau unrealistic estimates.
Success Measurement	Comprehensive measurement framework dengan leading/lagging indicators. Dashboard design included.	Good metrics selection dengan measurement plan. Basic dashboard.	Simple metrics identified. Limited measurement.	No measurement strategy atau poor metrics.

4. BUSINESS IMPACT (15% dari UAS)

Kriteria	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
ROI Modeling	Sophisticated financial modeling dengan NPV, IRR, payback period. Sensitivity analysis included.	Good ROI calculation dengan multiple scenarios. Basic sensitivity.	Simple ROI estimation. Limited scenarios.	No ROI calculation atau unrealistic projections.
Stakeholder Value	Clear value proposition untuk each stakeholder group. Quantified benefits where possible.	Good value identification dengan some quantification.	Basic value proposition. Limited quantification.	No clear value atau poor stakeholder consideration.

Sustainability Planning	Long-term sustainability strategy dengan environmental dan social impact consideration.	Good sustainability consideration dengan basic ESG elements.	Simple sustainability planning. Limited ESG.	No sustainability strategy.
Future State Vision	Compelling future state dengan clear transformation narrative. Innovation leadership positioned.	Good future state dengan transformation story. Some innovation focus.	Basic future state description. Limited transformation narrative.	Unclear future state atau no vision.

C. KRITERIA PENILAIAN KHUSUS

1. TEAM COLLABORATION ASSESSMENT (untuk UAS)

Aspek	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Team Dynamics	Exceptional collaboration dengan clear role distribution. Conflict resolution demonstrated.	Good teamwork dengan defined roles. Some conflict management.	Basic collaboration. Unclear roles at times.	Poor teamwork atau major conflicts unresolved.
Individual Contribution	All members contribute equally dengan specialized expertise. Peer evaluation scores >90%.	Most members contribute well. Peer scores 80-89%.	Some imbalance but adequate contribution. Peer scores 70-79%.	Significant imbalance atau poor individual performance. Peer scores <70%.
Project Management	Excellent project management dengan tools dan methodologies. Timeline met consistently.	Good project management. Most milestones met.	Basic project management. Some delays.	Poor project management atau significant delays.

2. PRESENTATION QUALITY

Aspek	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Content Organization	Logical flow dengan compelling narrative. Executive summary yang powerful.	Good organization dengan clear structure. Adequate summary.	Basic organization. Simple structure.	Poor organization atau confusing flow.
Visual Design	Professional design dengan excellent data visualization. Consistent branding.	Good design dengan effective visuals. Some branding consistency.	Basic design. Simple visuals.	Poor design atau ineffective visuals.
Delivery Quality	Confident delivery dengan excellent communication skills. Time management perfect.	Good delivery dengan clear communication. Good time management.	Adequate delivery. Basic communication.	Poor delivery atau time management issues.
Q&A Handling	Exceptional ability to handle questions dengan deep knowledge demonstration.	Good Q&A handling dengan adequate knowledge.	Basic Q&A responses. Some knowledge gaps.	Poor Q&A handling atau significant knowledge gaps.

D. SKALA PENILAIAN DAN KONVERSI

Skala Penilaian:

- **4 (Excellent):** 90-100 points
- **3 (Good):** 80-89 points
- **2 (Satisfactory):** 70-79 points
- **1 (Needs Improvement):** 60-69 points
- **0 (Unacceptable):** <60 points

Konversi Grade:

- **A (85-100):** Exceptional strategic thinking dan innovative solutions
 - **A- (80-84):** Very good analysis dengan solid recommendations
 - **B+ (75-79):** Good understanding dengan adequate application
 - **B (70-74):** Satisfactory knowledge dengan basic application
 - **B- (65-69):** Below average, needs significant improvement
 - **C+ (60-64):** Minimal competency demonstrated
 - **C (55-59):** Unsatisfactory performance
 - **D (<55):** Failing grade
-

E. FEEDBACK FRAMEWORK

Constructive Feedback Areas:

1. **Analytical Rigor:** Depth of analysis dan evidence quality
2. **Strategic Thinking:** Innovation dan future-ready solutions
3. **Implementation Feasibility:** Practicality dan resource consideration
4. **Professional Presentation:** Communication dan visualization quality
5. **Team Collaboration:** Teamwork dan individual contribution balance

Development Recommendations:

- **Specific Improvement Areas:** Based on rubrik performance
 - **Resource Suggestions:** Additional readings, tools, atau training
 - **Future Application:** How to apply learnings dalam professional context
 - **Peer Learning Opportunities:** Areas for knowledge sharing
-

F. ACADEMIC INTEGRITY & PROFESSIONAL STANDARDS

Requirements:

- **Original Work:** All analysis dan recommendations must be original
- **Proper Citations:** Academic dan professional sources properly cited
- **Confidentiality:** Client/organizational information handled appropriately
- **Professional Ethics:** Recommendations align dengan HR professional standards
- **AI Tool Disclosure:** Any use of AI tools must be disclosed dan documented

Violations:

- **Plagiarism:** Results in automatic failing grade
- **Data Fabrication:** Results in course failure

- **Unprofessional Conduct:** May result in grade penalties
- **Team Conflict Unresolved:** May affect individual grades

J
